

# Anna's Easy Plant List

Plants that have survived – or thrived! – on minimal care\* in my NW Tucson yard and patio

## Veggies/edibles

- green onions
- basil
- cherry tomatoes
- carrots
- lettuce
- broccoli
- fava beans
- Pima club wheat
- mint
- wolfberry
- snap peas

## Perennials

- desert marigold
- globemallow
- Indian mallow
- desert senna
- sweet alyssum
- verbena
- bloodflower

## Annuals

- poppies
- lupines
- sunflowers
- chia

## Bigger things

- creosote
- brittlebush
- Mexican bird of paradise
- honeysuckle
- assorted desert trees and succulents

\*Yes, you still have to give them water and keep out garden pests. Yes, plenty of plants died in the making of this list. Yes, your yard and attention will make a unique set of plants survive for you. Try anyway :) Celebrate what grows against the odds.
